

# “Brother Mod. 5” Challenge

## Objective:

This is not a timed event. The goal of this challenge is to assess not only the competitor’s accuracy and ability to perform a timely reload but also their ability to use quickly gathered information and apply it to the battlefield. When the competitor is staged and ready at the 25-yard line (PCC loaded and at the low ready position), the competitor running the drill (shooter) will check to make sure the other competitor (observer) is ready. Once they are, the observer will begin calling out steel targets in any order at their discretion, for a total of twelve. The reloads take place as needed. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks.

**IMPORTANT:** *Not every steel target needs to be used for this challenge, but the observer must identify and call out twelve steel targets for the competitor/shooter. The observer calls steel targets one-by-one as the competitor/shooter is shooting. For instance, when starting the challenge, the observer will say, “standby...orange (shot), purple (shot), green, (shot), blue (shot), pink (shot), purple (shot), orange (shot), green, (shot), pink (shot), blue (shot), purple (shot), green (shot). If the observe wants, they can call the same steel target twelve times.*

## Tasks:

Target identification, following target calls, reloading, and hit (ding) on each correct target

## Distance:

Stationary, 25-yard line

## Loadout:

12 rounds total: 3 magazines with 4 live rounds in each magazine

## Time:

N/A

## Available Targets:

*\*Observer decides target use and/or order by calling out each target while the competitor is shooting*

8” steel plate (blue)

8” steel plate (orange)

10” steel plate (purple)

10” steel plate (green)

Silhouette steel plate (pink)

## Skills Strengthened:

Decision making, combat reloads, target acquisition, and target accountability

## Challenge Type:

“No shit, there I was” – NSTIW Flag Challenge
