

“Elevator Down Mod. 2” Challenge

Objective:

This is a timed event. The goal of this challenge is to successfully engage targets and perform combat reloads while changing your elevation. Once the competitor is staged and ready at the 15-yard line (pistol loaded and holstered), they will check with the timekeeper and make sure they are ready. Once the timekeeper is set, the competitor will say “standby...GO” and begin the drill from the holster (time starts on GO). While standing, the competitor will draw their pistol from the holster and engage the 8” steel target (orange) with 2 rounds. The weapon should go into slide lock following that shot, at which point the competitor will perform a combat reload while going into a kneeling position (1 or 2 knees). Once the competitor has reloaded their pistol and from a kneeling position (1 or 2 knees) they will engage the 10” steel target (green) with 2 rounds. The weapon should go into slide lock following that shot, at which point the competitor will perform a combat reload while getting into a prone position. Once the competitor has reloaded their pistol and from a prone position, they will engage the silhouette steel target (pink) with 2 rounds. The time stops once the competitor gets a hit (ding) on their last target. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks in the allotted time frame.
