

“That’s Goofy Mod. 4” Challenge

Objective:

This is a timed event. The goal of this challenge is to work through a malfunction using immediate action (tap, rack, bang and/or reassess) with a magazine filled with 2 live rounds and 1 dummy round (filled in that order) using your strong hand while your PCC is in your support hand. Once the competitor is staged and ready at the 25-yard line (PCC loaded and at the low ready position), they will check with the timekeeper and make sure they are ready. Once the timekeeper is set, the competitor will say “standby...GO” and begin the drill from the low ready, PCC in the support hand (time starts on GO). The competitor will engage the silhouette steel target (pink) and hear click (dummy round) and immediately clear the malfunction (tap, rack, bang) using ONLY their strong hand to work the malfunction (DO NOT move the PCC from the support hand to the strong hand to do tap/rack). Once the malfunction is properly cleared, the competitor will re-engage that same target with 2 live rounds. Following the second shot, the bolt should lock to the rear, at which point the competitor will perform a combat reload using ONLY their strong hand to insert the magazine (DO NOT move the PCC from the support hand to the strong hand to do the reload) and reengage that same target using the support hand to shoot. This will continue until all magazines are complete. The time stops once the competitor gets a hit (ding) on their last target. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks in the allotted time frame.

Tasks:

Support hand shooting, immediate action (must tap and rack), reloading, hits (dings) on target, and beat the clock

Distance:

Stationary, 25-yard line

Loadout:

6 live rounds and 3 dummy rounds total: 3 magazines with 2 live rounds and 1 dummy round (filled in that order, live rounds placed in the magazine first, dummy round on top) in each magazine

Time:

40 seconds

Targets:

1: Silhouette steel plate (pink)

Skills Strengthened:

Support hand shooting, immediate action, problem solving, and combat reloads
