

“The Stranger Mod. 2” Challenge

Objective:

This challenge is used if there are multiple PCC’s available for use. This is a timed event. The goal of this challenge is to accurately use all available PCCs to complete this challenge. Before starting the challenge, place a table/bench at the 15-yard line, then place all PCCs (unloaded, bolt locked to the rear, on safe, and facing downrange), along with 1 magazine filled with 1 round for each PCC on the table/bench. Once the competitor is staged and ready at the 15-yard line they will check with the timekeeper and make sure they are ready. Once the timekeeper is set, the competitor will say “standby...GO” and begin the drill from the table/bench (time starts on GO). The competitor will retrieve a PCC, load it with the correct magazine and engage a steel plate target. Following that shot, the competitor will unload and clear, then place that PCC on the table in the same configuration they found it in, then retrieve another PCC and engage another steel plate target. This will continue until each PCC and the corresponding magazine has been used and each target has been engaged/hit. The time stops once the competitor gets a hit (ding) on their last target. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks in the allotted time frame.

IMPORTANT: *If the competitor starts with the PCC on the left side of the table/bench the first steel plate target they will engage is the one on the far-right side of the steel plate target line up. They will then continue to use the PCCs working left to right while engaging the steel plate targets right to left. The competitor can also start from the right side of the table/bench but must engage the steel plate targets in the opposite direction. Whatever the order is, each PCC must be used once, and each steel plate target must be engaged once.*
