

“Twice Penetrated” Challenge

Objective:

This is a timed event. The goal of this challenge is to work through a double feed style malfunction while on the move and then successfully engage a series of targets once the weapon is fixed. Before starting this challenge, the competitor will unload their pistol and show clear, then set up a double feed malfunction using 2 dummy rounds. They will then move to the 25-yard line, face down range and come to the “on gun” position (pistol pointed at the target as though they are actively engaging it). Once the competitor is staged, they will check with the timekeeper and make sure they are ready. Once the timekeeper is set, the competitor will say “standby...GO” and begin the drill from the “on gun” position (time starts on GO). The competitor will then clear the double feed malfunction while running to the 10-yard line. Once at the 10-yard line and when their pistol is fixed, they will engage the silhouette steel target (pink) with 1 round and the 10” steel target (green) with 1 round. The weapon should go into slide lock at which point the competitor will perform a combat reload and engage the 8” steel target (orange) with 1 round. The time stops once the competitor gets a hit (ding) on their last target. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks in the allotted time frame.

Tasks:

Remedial action while moving, reload, hit (ding) on each target, and beat the clock

Distance:

Moving, 25-yard line to the 10-yard line

Loadout:

1 magazine with 2 live rounds and 1 magazine with 1 live round (in that order)

Time:

35 seconds

Targets:

- 1: Silhouette steel plate
- 2: 10” steel plate (green)
- 3: 8” steel plate (orange)

Skills Strengthened:

Problem solving, remedial action, moving off the “X” and combat reloads
