

“Zigzag Mod. 3” Challenge

Objective:

This is a timed event. The goal of this challenge is to move from one shooting position to the next. Starting at the 50-yard line with 3 orange marking cones on the ground, when the competitor is staged and ready (PCC loaded and slung), they will check with the timekeeper and make sure the timekeeper is ready. Once the timekeeper is set, the competitor will say “standby...GO” and begin the drill (time starts on GO). The competitor will retrieve their 3 orange marking cones from the ground and run to the 15-yard line (left of center), placing 1 orange marking cone on the opposite side of the range, but in line with the green marking cone. Once the competitor has placed their orange marking cone, they will then run to the green marking cone online with them, face their target and engage the 8” steel target (blue) and the 8” steel target (orange) with 2 round each. Following the fourth shot, the bolt should lock to the rear at which point the competitor will perform a combat reload, pick up their remaining orange marking cones and run the 20-yard line (right of center) placing 1 orange marking cone on the opposite side of the range, but in line with the green marking cone. Once the competitor has placed their orange marking cone, they will then run to the green marking cone online with them, face their target and engage the 10” steel target (purple) and the 10” steel target (green) with 2 rounds each. Again, following the fourth shot, the bolt should lock to the rear at which point the competitor will perform a combat reload and pick up their last orange marking cone and run the 25-yard line (left of center) placing 1 orange marking cone on the opposite side of the range, but in line with the green marking cone. Once the competitor has placed their orange marking cone, they will then run to the green marking cone online with them, face their target and engage the silhouette steel target (pink) with 4 rounds. The time stops once the competitor gets a hit (ding) on their last target. To successfully pass this challenge, the competitor and the challenger(s) must complete the tasks in the allotted time frame.

IMPORTANT: Range Preparation - using 3 green marking cones, place 1 on the left side of the center 15-yard line range cone (approximately 10 feet), 1 on the right side of the center 20-yard line range cone (approximately 10 feet), and 1 on the left side of the center 25-yard line range cone (approximately 10 feet).
